

## **Greater Nottingham – Broxtowe BC, Gedling BC and Nottingham City Council – Aligned Core Strategies (ACS) Examination**

Note on further written statements:

1. Please read the Inspector's revised Guidance Notes, follow the advice on word count and observe the closing date for submission.
2. Write your name, and the name of your organisation if relevant, at the top of the statements, and state exactly which matters and questions you are addressing.
3. Further written statements must be based solely on your original representation and provide additional information which answers the questions directly. If the answers to the questions were set out in your original representation, please simply provide a reference back to that, and refrain from repeating the evidence.
4. Please focus on:
  - What part of the local plan (ACS) is unsound.
  - Which soundness criterion it fails.
  - Why it fails (point to the key parts of your original representation or further statement).
  - How the plan can be made sound.
  - The precise change and/or wording that you are seeking.
5. Matter 2 contains a very long list of questions and I am prepared to be flexible on word count on this matter, especially in respect of statements from the Councils, as long as the principles of being concise, non-repetitive and to the point are followed. Questions 23-25 of Matter 2 cover site specific issues to be addressed on a separate day.

Jill Kingaby  
Inspector
