

NET Phase Two Beeston and Chilwell route

237

NET works update - Greenwood Court allotment access

As you may be aware, works have been taking place in Beeston and Chilwell as part of the expansion of Nottingham's tram network.

As part of these works a water culvert is being installed alongside the future tramway which will run along the greenway, across Cator Lane and past Greenwood Court to Central College.

The access road from Cator Lane onto the Greenwood Court allotments will be closed from Monday 27th May for approximately four months, so that equipment and materials for the water culvert can be brought in safely before it is put in place. Access to the allotments will be maintained from Grove Avenue and there will be no impact on road traffic on Cator Lane.

Further works to lay the tram tracks and carry out other works next to Greenwood Court will be needed after the water culvert has been installed. We will contact you nearer to the time to give you more details about these works.

The water culvert works will be carried out between 8am – 6pm, Monday – Friday and 8am - 1pm on Saturday and will be in accordance with the Code of Construction Practice (CoCP), which was agreed at the NET Phase Two public inquiry held in 2007.

The CoCP regulates the way that works for NET Phase Two can be undertaken, and sets out standards for our contractor on issues such as controlling noise, vibration and dust. This will ensure that works are undertaken in a responsible and sympathetic manner.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, the CoCP, or the project in general, please contact us on: (0115) 924 24 54 or visit www.thetram.net/phasetwo.
