NET works update - High Road, Beeston

As you may be aware, works have been taking place in Beeston and Chilwell as part of the expansion of the Nottingham tram network.

As part of these works, communication cable utility services need to be moved on the High Road in Beeston, between its junctions with Humber Road and Derby Street, from Monday 29th April for approximately eleven weeks.

Pavements will need to be narrowed, with pedestrians diverted around the works site, but access to shops and businesses will be maintained.

These works will be carried out between 8am – 6pm, Monday – Friday and 8am - 1pm on Saturday, and will be in accordance with the Code of Construction Practice (CoCP), which was agreed at the NET Phase Two public inquiry held in 2007.

The CoCP regulates the way that works for NET Phase Two can be undertaken, and sets out standards for our contractor on issues such as controlling noise, vibration and dust. This will ensure that works are undertaken in a responsible and sympathetic manner.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, the CoCP, or the project in general, please contact us on: (0115) 924 24 54 or visit www.thetram.net/phasetwo.
