

NET Phase Two Beeston and Chilwell route

149

NET works update – Middle Street / The City, Beeston

As you may be aware, various utility works have been taking place on Middle Street, as part of the expansion of Nottingham's tram network to Beeston and Chilwell.

The next stage of these works involves moving sewer and electricity services on Middle Street, at its junction with The City.

These works are due to begin on Monday 21st January and are expected to take approximately five weeks to complete.

Temporary traffic lights will be in use on the westbound lane (towards Beeston and Chilwell) of Middle Street at its junction with The City, which is near to the former Three Horseshoes pub, so that these works can be carried out safely. Please allow extra time when travelling through this area.

The City will be temporarily closed to through traffic until these works are completed, but access for residents of The City will be maintained at all times.

These temporary traffic restrictions will be in place 24 hours a day until these works are completed.

These works will take place between 8am to 6pm Monday to Friday and 8am to 1pm on Saturday and will be carried out in accordance with the Code of Construction Practice (CoCP), which was agreed at the NET Phase Two public inquiry held in 2007.

The CoCP regulates the way that works for NET Phase Two can be undertaken, and sets out standards for our contractor on issues such as controlling noise, vibration and dust. This will ensure that works are undertaken in a responsible and sympathetic manner.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, the CoCP, or the project in general, please contact us on: (0115) 924 24 54 or visit www.thetram.net/phasetwo.
