

## NET Phase Two Beeston and Chilwell route

244

### NET works update – Toton Lane

As you may be aware, works have been taking place in your area as part of the expansion of Nottingham's tram network to Beeston and Chilwell.

As part of these works, tree stumps are being removed on Toton Lane, opposite the electricity sub station, from Monday 14<sup>th</sup> January for approximately two weeks.

So that this can be completed safely, temporary traffic lights will be in use on this part of Toton Lane between 9.30am to 3.30pm, Monday to Friday.

Fencing will be put up around the tree stumps, and, as a consequence, a section of the pavement near to the stumps will not be in use. Pedestrians will instead be redirected across the road to the opposite pavement via a temporary crossing.

These works will be carried out between 8am – 6pm, Monday – Friday and 8am - 1pm on Saturday. The works will be in accordance with the Code of Construction Practice (CoCP), which was agreed at the NET Phase Two public inquiry held in 2007.

The CoCP regulates the way that works for NET Phase Two can be undertaken, and sets out standards for our contractor on issues such as controlling noise, vibration and dust. This will ensure that works are undertaken in a responsible and sympathetic manner.

We apologise in advance for any inconvenience that these works may cause you, and would like to assure you that we will do all that we can to keep disruption to a minimum.

For more information about these works, the CoCP, or the project in general, please contact us on: (0115) 924 24 54 or visit [www.thetram.net/phasetwo](http://www.thetram.net/phasetwo).
