DISC	USSION	ACTION
1.0	WELCOME	
1.1	CD (NET Project Director) welcomed the group, and provided a background to the establishment of the various Local Liaison Groups along the route. It was agreed that such groups will have the capacity to be flexible and expand their membership to suit specific needs that may emerge over the length of the implementation programme.	
2.0	INTRODUCTIONS	
2.1	Everyone introduced themselves.	
3.0	PROJECT OVERVIEW - NCC	
3.1	CD provided a commentary on the NET Phase Two Project Overview.	
3.2	CD confirmed that a copy of the accompanying NET Project Overview presentation would be attached to the notes of the meeting when distributed to the Group.	NCC
4.0	LOCAL CONSTRUCTION PROGRAMME & KEY ISSUES – TW-A	
4.1	RH (Construction Director, TW-A) provided a commentary on the local construction programme and key issues specific to the area covered by the Group.	
4.2	A copy of the accompanying TW-A presentation is to be attached to the notes of the meeting.	NCC
5.0	COMMUNITY LIAISON OFFICER – TW-A	
5.1	Matt Orchard (Community Liaison Officer – TW-A) gave a broad overview on the role of the TW-A Community Liaison Officers, and expressed his and his colleagues' readiness to respond to issues once they have been identified.	
6.0	DISCUSSIONS / QUESTIONS	
6.1	Neville Sadler Court (NSC) – Clarity was sought on NCC's response to the recent Nick Palmer newsletter/article suggesting 'broken promises' at NSC resulting in its closure.	
	6.1.1 - The NET Project Team remains in close liaison with Housing 21 and will continue to provide support to affected residents, although it is understood that just a few are still to be relocated.	
	6.1.2 - BBC has offered to assist to re-house any residents who are not yet relocated.6.1.3 - It was confirmed that NCC would be responding to Nick Palmer's article in due course.	NCC
6.2	Advance notification of vegetation clearance –Reassurance was sought that before any further vegetation clearance (trees and shrubs, etc) takes place in their locality that residents will be notified, and such trees and shrubs will be identified before the works commence.	
	 6.2.1 - It was confirmed that any vegetation clearance that had taken place was in line with that which had been approved by Broxtowe Borough Council, and TW-A would seek to ensure that advance notification and prior identification would take place before any further vegetation clearance commenced in the area discussed. 6.2.2 - TW-A confirmed that the tree removal already carried out had been necessary, and that any further removal of trees currently considered marginal would only take place if there was no option to retain, and if it was in line with approval from the Broxtowe Tree Officer. 	

6.2.3 TW-A advised that a comprehensive tree replanting and landscaping programme would be designed and implemented once the construction works had been completed. This could include, in some areas, and if residents were agreeable, some replacement tree planting in private gardens. 6.3 Pedestrian & Cycle access provisions during construction — A question was raised about the need to maintain both pedestrian and cycle access, particularly along the Greenway. 6.3.1 - It was advised that whilst diversions will be required at some locations during certain periods of construction, it remains the intention to keep such access open during the programme of activity. 6.4 Toton Lane traffic impacts – It was noted that traffic issues had surfaced recently, with queues building up. 6.4 Toton Lane traffic impacts – It was noted that traffic issues had surfaced recently, with queues building up. 6.5 Payment of neurred cost of removing garden effects - Confirmation was sought that exosts incurred for the removal and restoring of garden effects due to requests from the NET Project Team to vacate land on a specific date would be met. 6.5.1 – It was confirmed that such legitimate associated land acquisition costs incurred would be areal approximately 14 to 28 days after the claim had been submitted and verified by Bruton Knowles on behalf of the project. ST confirmed that such claims could be resolved in advance of the formalised mature of compensation for land ultimately acquired on behalf of the project for the scheme. NCC 6.6 Parking of Contractors' vehicles on local streets – Reassurance was requested that the contractors will be consurged to refrain from parking their whic			
about the need to maintain both pedestrian and cycle access, particularly along the Greenway. 6.3.1 - It was advised that whilst diversions will be required at some locations during certain periods of construction, it remains the intention to keep such access open during the programme of activity. 6.4 Toton Lane traffic impacts - It was noted that traffic issues had surfaced recently, with queues building up. 6.4.1 - TW-A confirmed they were aware of the difficulties and said that the signal timings had been revised. It was also confirmed that BBC highways section had been in discussion with the Contractors regarding traffic flows during the implementation of the works. 6.5 Payment of incurred cost of removing garden effects - Confirmation was sought that costs incurred for the removal and restoring of garden effects due to requests from the NET Project Team to vacate land on a specific date would be met. NCC 6.5.1 - It was confirmed that such legitimate associated land acquisition costs incurred would be paid approximately 14 to 28 days after the claim had been submitted and verified by Bruton Knowles on behalf of the Project. ST confirmed that such claims could be resolved in advance of the formalised matter of compensation for land ultimately acquired on behalf of the project for the scheme. NCC 6.6 Parking of Contractors' vehicles on local streets - Reasurance was requested that the local side streets, and that if it did become an issue then some form of residents' parking permit system could be considered. NCC 6.7 Parking of Contractors' whices on local side streets . Fencing provisions / requirements through the 'Greenway' – Discussions		This could include, in some areas, and if residents were agreeable, some replacement	
certain periods of construction, it remains the intention to keep such access open during the programme of activity. 6.4 Toton Lane traffic impacts – It was noted that traffic issues had surfaced recently, with queues building up. 6.4.1 - TW-A confirmed they were aware of the difficulties and said that the signal timings had been revised. It was also confirmed that BBC highways section had been in discussion with the Contractors regarding traffic flows during the implementation of the works. 6.5 Payment of incurred cost of removing garden effects – Confirmation was sought that costs incurred for the removal and restoring of garden effects due to requests from the NET Project Team to vacate land on a specific date would be met. 6.5.1 – It was confirmed that such legitimate associated land acquisition costs incurred would be paid approximately 14 to 28 days after the claim had been submitted and verified by Bruton Knowles on behalf of the Project. ST confirmed that such claims could be resolved in advance of the formalised matter of compensation for land ultimately acquired on behalf of the project for the scheme. 6.6 Parking of Contractors' vehicles on local streets – Reassurance was requested that the contractors will be encouraged to contact the Project Team on the NET 'hot-line' giving details or to call the TW-A Community Liaison Officer as soon as possible if contractors are parking their vehicles on local streets. 6.7 Fencing provisions / requirements through the 'Greenway' – Discussions were had as to the measures to be used to delineate the area in which the tramway needs to operate safely. 6.7.1 –It was confirmed that the normal means of safely delineating the area within which the tram would operat	6.3	about the need to maintain both pedestrian and cycle access, particularly along the Greenway.	
 with queues building up. 6.4.1 - TW-A confirmed they were aware of the difficulties and said that he signal timings had been revised. It was also confirmed that BBC highways section had been in discussion with the Contractors regarding traffic flows during the implementation of the works. 6.5 Payment of incurred cost of removing garden effects – Confirmation was sought that costs incurred for the removal and restoring of garden effects due to requests from the NET Project Team to vacate land on a specific date would be met. 6.5.1 – It was confirmed that such legitimate associated land acquisition costs incurred would be paid approximately 14 to 28 days after the claim had been submitted and verified by Bruton Knowles on behalf of the Project. ST confirmed that such claims could be resolved in advance of the formalised matter of compensation for land ultimately acquired on behalf of the project for the scheme. 6.6 Parking of Contractors' vehicles on local streets – Reassurance was requested that the contractors will be encouraged to refrain from parking their own vehicles on local streets during the ongoing works. 6.6.1 – It was confirmed that contractors will be instructed not to park their vehicles in the local side streets, and that if it did become an issue then some form of residents' parking permit system could be considered. 6.6.2 – Residents are encouraged to contact the Project Team on the NET 'hot-line' giving details or to call the TW-A Community Liaison Officer as soon as possible if contractors are seen parking their vehicles on local side streets. 6.7 Fencing provisions / requirements through the 'Greenway' – Discussions were had as to the measures to be used to delineate the area in which the tramway needs to operate safely. 6.8.1 – Tk was confirmed that the normal means of safely delineating the area within which the tram would operate is with a low level fence; however it was recognised that		certain periods of construction, it remains the intention to keep such access open during
