

Richard Hogg - Construction Director

Kate Atha - Communications

Matt Orchard - Community Liaison Officer
for Chilwell

Construction Challenge:

- We will do all that we can to minimise, as far as possible, the disruption caused, and to keep those affected fully informed
- To help ensure people are aware of the tram construction works, we will use the full range of communication tools mentioned earlier by Chris Deas

The Tram in Chilwell - The Next Six Months

Sensitive locations: -

- Children's play area and recreational usages of the Greenway
- Elderly persons complexes
- Proximity to properties/gardens – boundary treatments

- Our site office complex will be operational by the end of June
- Diversion of existing services in the verge of Toton Lane (including 33kV cables) has started and will continue throughout the summer
- BT & Virgin Media cables at Bardill's Island will be diverted in the summer
- The park and ride site will be used as our main compound and storage area

- Now that the new play park is complete the existing services can be diverted

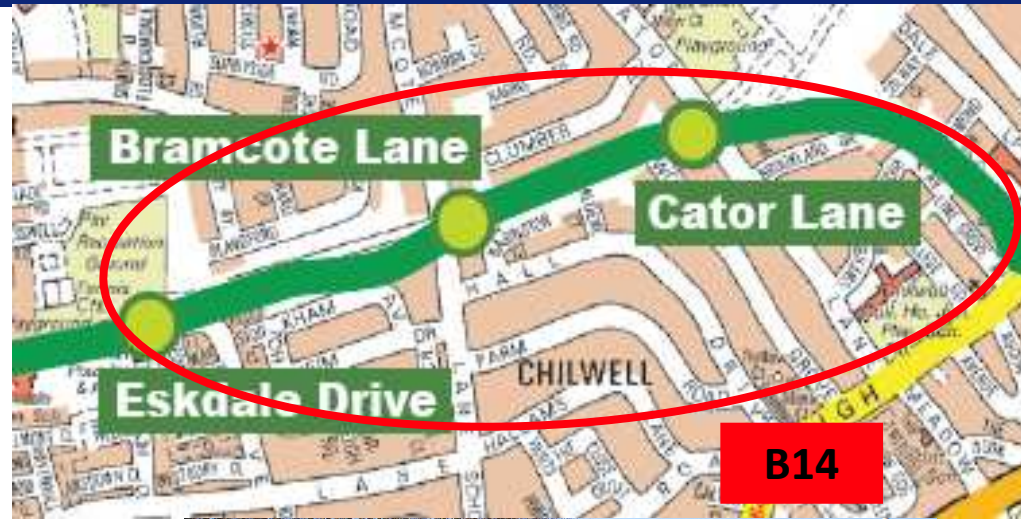

- The diversions continue throughout 2012

- The final water supply diversion will be completed in Spring 2013

Chilwell B14

- 2012 is taken up with service diversions at all locations between the College and Eskdale Drive
- Work starts to realign the culvert at Richmond Ct. at the end of the year and will take about 6 months to complete
- Work to realign and culvert the brook between Eskdale Drive and Bramcote Lane are currently due to begin in September for about 5 months

- The majority of the service diversion works begin in late summer
- The junctions of Station Rd / Queens Road and Meadow Lane / Queens Rd are to be improved and should be complete by October. Utility diversions here are currently due to start in May 2012
- Chilwell High Rd will then be made one way to enable the major diversion works and then the track construction to be carried out
